

About us

The **Early Support Alsbachtal** is a free service offered by Alsbachtal gGmbH and part of the Early Support Network in Oberhausen.

We help parents with problems and worries they may have about their child as early as possible. We support parents with children from 0 to 3 years. Together with parents, we want to ensure that children grow up healthy from the beginning. Together we discuss their life situation and together we find solutions.

If you need support due to your life situation, we will arrange the right service for you.

No matter what worries and questions you have. Take advantage of the free services of the Early Support Alsbachtal.

We are APPROACHABLE!

A warm welcome!

Welcome to the Early Support Alsbachtal!

All parents want the best for their child. But the joy of having a baby is sometimes accompanied by questions and worries.

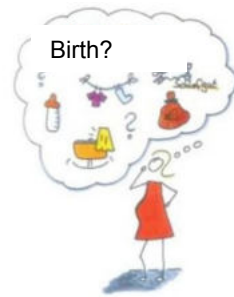

Especially if, for example, the pregnancy was not planned, the child cries constantly, a developmental delay has been diagnosed, someone's reserves are empty due to sleep deprivation or there is a lack of support from their partner or family.

Then the feeling of being alone and helpless can quickly arise.

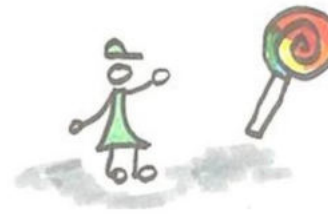

We are here for you!

Our services

Pilot service in clinics for help with the birth

Contact partners for all questions relating to the child, family, being a parent and raising children
